

Worldwide Giving Report

Worldwide Giving Report:

Investing in STEM education

Economic development and community resilience

Volunteering in local communities

The Exxon Mobil Corporation, its divisions, affiliates, employees, retirees, as well as the ExxonMobil Foundation, invests in the **communities where we operate**. These investments focus on local needs and align with our giving strategy.

We engage with key stakeholders, including governments and NGOs, to identify the best way to support each community's unique development goals. We often participate in public-private partnerships to create long-term, positive economic and social development.

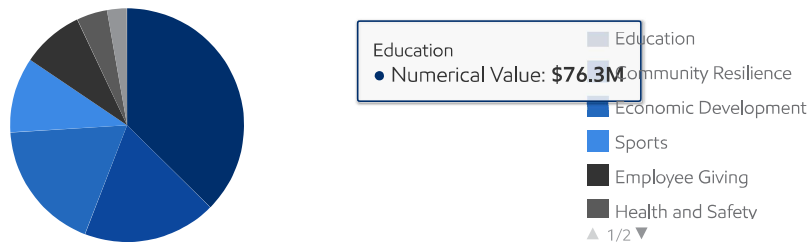

Key takeaways

1. In 2025, ExxonMobil, together with its divisions, affiliates, employees, retirees, and the ExxonMobil Foundation, invested \$204 million in the communities in which ExxonMobil operates around the world.
2. In 2025, more than 14,000 ExxonMobil employees and retirees volunteered more than 73,000 hours to more than 800 organizations around the world.
3. Our primary focus is on science, technology, engineering and mathematics (STEM) education, economic development, and community resilience.

\$204M Worldwide total

In 2025, ExxonMobil, together with its divisions, affiliates, employees, retirees, and the ExxonMobil Foundation, collectively provided \$204 million in community investments worldwide:

- \$75 million supported U.S. communities.
- \$120 million supported communities in other countries.
- \$17 million in donations from ExxonMobil employees and retirees through our employee-giving programs.

Investing in communities

Investing in STEM education

ExxonMobil works with local educators, universities, nonprofits, and global academic leaders, including the selected examples highlighted here, to address the STEM education gap.

Economic development and community resilience

Our goal is to help improve economic development and community resilience where we operate around the world, with the initiatives highlighted here representing selected examples of this work.

Volunteering in local communities

More than 14,000 ExxonMobil volunteers gave over 73,000 hours to support more than 800 charitable organizations worldwide, with the examples highlighted here representing a portion of that effort.
